

USER OPERATION MANUAL

A. Basics

Step 1: Enter mobile number, if registered chat panel will appear else click on new user button in the bottom.

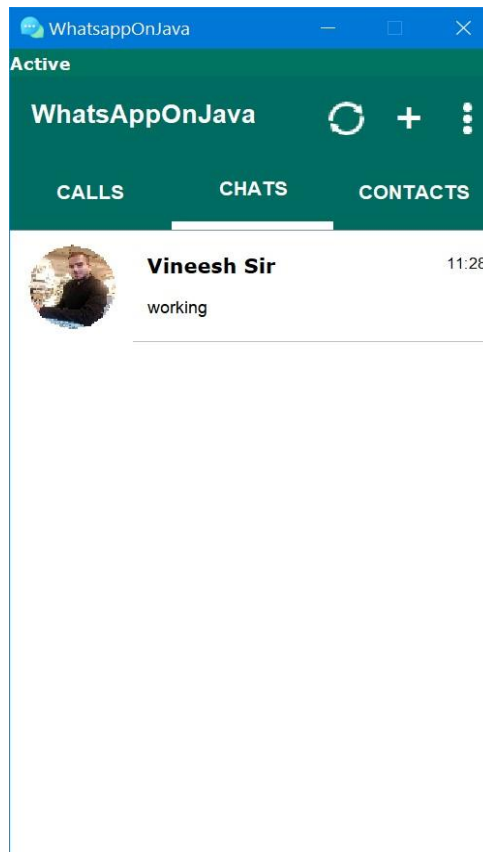

The screenshot shows a web browser window titled 'WhatsappOnJava'. The page has a dark green header with the text 'Verify your identity', 'WhatsAppOnJava', and 'User Verification'. Below the header is a large blue speech bubble icon with three white dots. Underneath the icon is a text input field labeled 'Enter registered mobile number' with a green border and a green '>>' button to its right. At the bottom right of the page is a green button labeled 'New User?'.

Step 2: If not registered- Create new account by entering all the details. After filling all the details click on **Register** button

The screenshot shows a web browser window titled 'WhatsappOnJava'. The page has a dark green header with the text 'Registration', 'WhatsApp', and 'New User Registration'. Below the header is a circular profile picture of Mark Zuckerberg with a green 'change' button to its right. Underneath the profile picture are four form fields: 'Name' with the value 'Mark Zuckerberg', 'Mobile' with the value '9454', 'E-mail' with the value 'mark@anymail.com', and 'About' with the value 'Hey There! I am using WhatsAppOnJava'. At the bottom of the form is a green 'Register' button. At the bottom right of the page is a green 'Back' button.

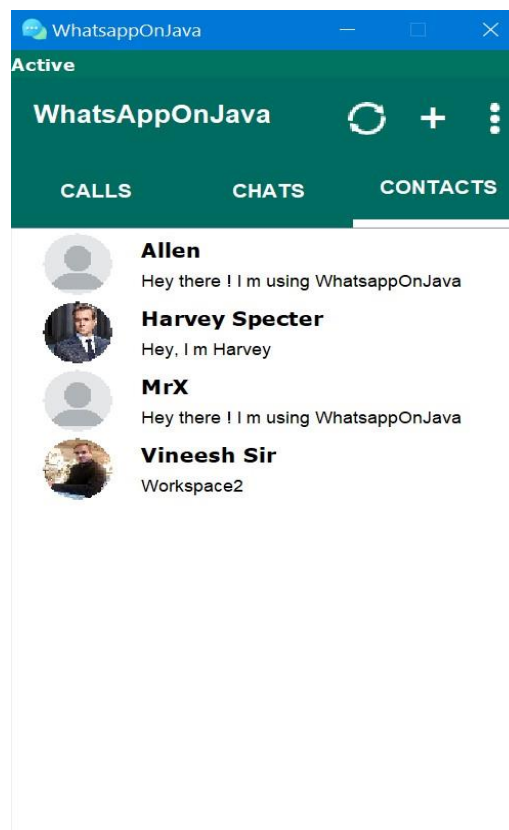

Step 3: If registered- Chat panel will appear, click on listed chats to start conversation.
